## Other Considerations

**Self - Employed** – Government funding of 80% of trading profit (which cannot be more than £50,000 p.a.), up to £2,500 per month. It is anticipated that that successful applications for this grant will not be available until June but backdated to 1 March 2020. To be eligible, you will need to demonstrate that you take half your income from trading. Directors whose main source of income is dividend will not be eligible.

**Key Performance Indicators** - These will need to be monitored to ensure you are accurately informed of the impact on your business.

**Cash Management** - Preparing daily receipts and payments cash flow, combined with a medium term forecast is sensible and it will allow you to manage cash and ensure no short term funding issues.

**Stakeholder Engagement** – It is important for you to engage with all stakeholders to ensure that all the resources and reliefs that are potentially available to you are pursued.

**Insurance** – Check (with your broker) what your policy covers. Whilst insurers may suggest that the Covid-19 pandemic is not covered, it may be that the same does fall within any Force Majeure provisions within the policy (if any).
